SKILLS

- **Languages:** Python, Java, JavaScript, C++, C
- **Design Tools:** Figma, AdobeXD, Adobe Photoshop, Balsamiq
- **AWS Skills:** EC2, EBS, RDS, VPC, IAM, CloudWatch
- **Frontend:** HTML, CSS, Tailwind
- **Frameworks:** React, Express.js, Angular
- **Soft Skills:** Creative, Team Performer, Organized, Time management

PROJECTS

Online Examination Platform | [Live](#)

Mar 2026 – Apr 2026

- Built a secure and scalable Online Examination Platform on AWS using VPC, EC2 Auto Scaling, ELB, S3, and RDS.
 - Ensured high availability, fast performance, secure handling of exam files and data through IAM, CloudWatch, and WAF.
 - Delivered a fault-tolerant, low-latency architecture capable of supporting thousands of concurrent exam users efficiently.
- AWS Services Used: Amazon S3, EC2, VPC, IAM, RDS, CloudFront, ELB, Auto Scaling, CloudWatch, AWS WAF**

Social media platform | [Live](#)

Jul 2025 – Aug 2025

- Designed a scalable AWS-based social media platform using EC2, S3, RDS, VPC, CloudFront, ELB, and Auto Scaling to manage high traffic and large media uploads.
 - Configured **CloudFront**, **ELB**, and **Auto Scaling** to improve performance, scalability, and application availability
 - Implemented secure architecture with IAM roles, fault-tolerant components for fast and reliable global content delivery.
- Technologies Used: AWS EC2, S3, RDS, VPC, CloudFront, ELB, Auto Scaling, IAM, CloudWatch, Security Groups.**

AI-Powered Chatbot | [Live](#)

Jan 2025 – Feb 2025

- Designed a secure and scalable AI-Powered Chatbot on AWS using EC2, Lambda, RDS, S3, and VPC to handle thousands of real-time user interactions with high availability and low latency.
 - Integrated **API Gateway** with **AWS Lambda** to enable secure, scalable, and low-latency chatbot interactions.
 - Implemented a protected cloud architecture with IAM, public/private subnets, API Gateway, and CloudWatch monitoring to ensure data security, automated response generation, and continuous performance tracking.
- Technologies Used: AWS EC2, Lambda, RDS, S3, VPC, IAM, API Gateway, Auto Scaling, Security Groups.**

TRAINING

Summer Training on DSA in Java | [Certificate](#)

Jun 2025 – Jul 2025

- Completed Advanced DSA in Java with a strong focus on efficient problem-solving, performance optimization, and real-world coding practice.
- Gained hands-on experience in complex algorithms such as graph algorithms, dynamic programming, recursion, backtracking, and greedy techniques.
- Worked with advanced data structures including trees, heaps, hash maps, tries, linked lists, and priority queues while strengthening time-space complexity analysis and algorithmic thinking.

CERTIFICATES

- | | |
|--|----------|
| • ChatGPT-4 Prompt Engineering:AI & LLM Infosys | Sep 2025 |
| • Build AI Apps and Solutions with No-Code Tools Infosys | Aug 2025 |
| • Amazon Clone Using HTML, CSS & JavaScript Devtown | Sep 2024 |
| • HR DATA QUEST 2K23 Hr Data Quest | Oct 2023 |

EDUCATION

Lovely Professional University

Bachelor of Technology

Computer Science and Engineering: CGPA:6.21

Phagwara, Punjab

2023 – 2027

St. Thomas College

Intermediate

PCM; Percentage:59 %

Lucknow, UP

2022 – 2023

St. Thomas College

Matriculation

Percentage: 77%

Lucknow, UP

2020 – 2021
