SKILLS

- **Languages**: Python, Java, JavaScript, C++, C
- **Design Tools**: Figma, AdobeXD, Adobe Photoshop, Balsamiq
- **AWS Skills**: EC2, EBS, RDS, VPC, IAM, CloudWatch
- **Frontend**: HTML, CSS, Tailwind
- **Frameworks**: React, Express.js, Angular
- **Soft Skills**: Creative, Team Performer, Organized, Time management

PROJECTS

Online Examination Platform | Live Jul' 25

- Built a secure and scalable Online Examination Platform on AWS using VPC, EC2 Auto Scaling, ELB, S3, and RDS.
- Ensured high availability, fast performance, and secure handling of exam files and student data through IAM, CloudWatch, and AWS WAF.
- Delivered a fault-tolerant, low-latency architecture capable of supporting thousands of concurrent exam users efficiently.

AWS Services Used: Amazon S3, EC2, VPC, IAM, RDS, CloudFront, ELB, Auto Scaling, CloudWatch, AWS WAF

Social media platform | Live Mar' 25

- Designed a scalable AWS-based social media platform using EC2, S3, RDS, VPC, CloudFront, ELB, and Auto Scaling to manage high traffic and large media uploads.
- Implemented secure architecture with IAM roles, public/private subnets, monitoring, and fault-tolerant components for fast and reliable global content delivery.

Technologies Used: AWS EC2, S3, RDS, VPC, CloudFront, ELB, Auto Scaling, IAM, CloudWatch, Security Groups.

AI-Powered Chatbot | Live Jan' 25

- Designed a secure and scalable AI-Powered Chatbot on AWS using EC2, Lambda, RDS, S3, and VPC to handle thousands of real-time user interactions with high availability and low latency.
- Implemented a protected cloud architecture with IAM, public/private subnets, API Gateway, and CloudWatch monitoring to ensure data security, automated response generation, and continuous performance tracking.

Technologies Used: AWS EC2, Lambda, RDS, S3, VPC, IAM, API Gateway, CloudWatch, Auto Scaling, Security Groups.

TRAINING

Summer Training on DSA in Java | Certificate Jun' 25 – Jul' 25

- Completed Advanced DSA in Java with a strong focus on efficient problem-solving, performance optimization, and real-world coding practice.
- Gained hands-on experience in complex algorithms such as graph algorithms, dynamic programming, recursion, backtracking, and greedy techniques.
- Worked with advanced data structures including trees, heaps, hash maps, tries, linked lists, and priority queues while strengthening time–space complexity analysis and algorithmic thinking.

CERTIFICATES

- ChatGPT-4 Prompt Engineering:AI & LLM | **Infosys** Sep' 2025
- Build AI Apps and Solutions with No-Code Tools | **Infosys** Aug' 2025
- Amazon Clone Using HTML, CSS & JavaScript | **Devtown** Sep' 2024
- HR DATA QUEST 2K23 | **Hr Data Quest** Oct' 2023

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 23 – Present
Computer Science and Engineering: CGPA:6.04

St. Thomas College Lucknow, UP
Intermediate Apr' 22 – Mar' 23
PCM; Percentage:59 %

St. Thomas College Lucknow, UP
Matriculation Apr' 20 – Mar' 21
Percentage: 77%
